

DOM 16

ULTIMATE RUST PREVENTIVE COATING

- Super hard non-porous coating!
- Kills rust and permanently seals out moisture, rust and corrosion!

Highest quality - provides rock-hard non-porous finish on all ferrous (porous) and other metals. Penetrates and kills off the rust. DOM16 will harden and nothing can penetrate it. Excellent scratch resistance, chemical resistance and fantastic anti-chipping properties.

Apply over clean, bare metal, or various types of rusted metals with brush, conventional or airless spray equipment. If applying over bare metal extended cure times are needed for adhesion. See directions on can for details.

Available in Black, Clear or Grey • In Quarts (946 mL) or Pints (473 mL)
