

**Pops half shafts loose from engine**

www.steckmfg.com

**The Axle Popper breaks loose half shafts from transaxle on front wheel drive vehicles.**

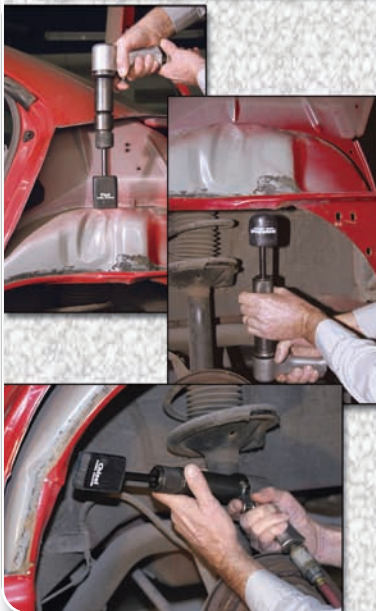

- Insert fork between transaxle case and half shaft.
- Strike the end of the fork to release the half shaft.
- Shim included in kit to fill larger gap found on some vehicles.
- Applies even pressure to both sides of shaft.
- Safer and surer than a pry bar.

**#71410 - Axle Popper**

**\$65.00**

**Panel Shaper Kit**

**1 Flat Head**

Straightens out floors, trunk floors and provide stress relief in the repair process

**2 Rounded Head**
